

Listing of Claims:

1. (original) An air vent to be mounted on a vehicle body, having a frame molded of a plastic material and at least one electric or electronic component that is embedded in the plastic material.

2. (original) An air vent to be mounted on a vehicle body, having a frame with a frame core molded of a plastic material and at least one electric or electronic component that is accommodated in a locating recess of the frame core, the frame core with the component being over-molded with plastic material.

3. (currently amended) The air vent according to claim 1 ~~or claim 2~~, wherein the component is integrated into the frame by injection-molding.

4. (currently amended) The air vent according to claim 1 ~~one of the preceding claims~~, wherein the component is one of the following:

- an antenna
- an antenna microstrip
- a connection plug
- a sensor.

5. (original) The air vent of claim 4, wherein the frame is generally rectangular with a plurality of ribs

Listing of Claims:

1. (original) An air vent to be mounted on a vehicle body, having a frame molded of a plastic material and at least one electric or electronic component that is embedded in the plastic material.
2. (original) An air vent to be mounted on a vehicle body, having a frame with a frame core molded of a plastic material and at least one electric or electronic component that is accommodated in a locating recess of the frame core, the frame core with the component being over-molded with plastic material.
3. (currently amended) The air vent according to claim ~~1 or claim 2~~, wherein the component is integrated into the frame by injection-molding.
4. (currently amended) The air vent according to claim 1 ~~one of the preceding claims~~, wherein the component is one of the following:
 - an antenna
 - an antenna microstrip
